

NATIONAL LIFT TOWER ASSOCIATION

DO YOU NEED...?

- Up-to-the-minute information on technical regulations, standards and best practice.
- Seminars, workshops and training.
- An informal forum to problem-solve with your peers.
- Access to visit the on site test and training facilities and understand how they might be useful for your business.
- The space and opportunity to brainstorm ideas, explore solutions and share best practice with colleagues from within the industry.
- Access to test and consultancy services, equipment and materials.

WE CAN PROVIDE YOU WITH THESE SERVICES AND MUCH MUCH MORE...

- The National Lift Tower organises the NLT Association for the benefit of the lift industry.
- The National Lift Tower is a unique facility providing world-class facilities for the industry, to promote the advancement of its knowledge base and offer a controlled test & training environment of exceptional quality to its members.
- The reopening of the lift tower in line with its original purpose is a landmark occasion, complemented by the launch of the NLT Association, which can offer a broad range of services for its members.

THE ASSOCIATION'S VISION

- TO HELP companies provide professional development and training opportunities for their staff, supported by practical, hands-on experience.
- TO ENSURE manufacturers, users and importers have access to the most up to date legislation.
- TO PROVIDE a meaningful forum in which to exchange information (and solutions) between peers experiencing similar issues or situations.
- TO PROVIDE its members with professional and cost-effective services, equipment, and facilities.

BENEFITS OF MEMBERSHIP

- ACCESS TO EXPERTS - through briefings and seminars.
- KEEP UP TO DATE - through association website or informative mailings.
- ACCESS TO EDUCATION AND TRAINING - through regular technical seminars, clinics, surgeries and demonstration workshops.
- NETWORK AND SOLVE PROBLEMS - at regular meetings with fellow companies and the association technical experts.
- ENSURE YOUR PRODUCTS COMPLY WITH THE MOST RECENT DIRECTIVES IN A COST EFFECTIVE MANNER - through discounted test, assessment, training and consultancy services.
