

National Lift Tower Association

An invitation to attend a workshop hosted at the tower.

1.00pm - 5.30pm, Thursday 14th April 2011.

We are pleased to announce the next NLT Association workshop at the tower. As well as the presentations, there will be an opportunity to take a tour of the tower and/or see a demonstration of the Henning ELVI system. The ELVI system can be used to test the operation of the safety gear, traction and brake; it can also be used to measure the true mass of the lift car.

Malcolm Miles (Lift Cert Ltd)
The role of notified bodies and the lift directive

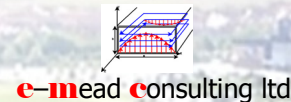

Dave Cooper (LECS)
Safety on lifts - BS7255 Part 5 "Duties of persons working on lifts"

Nick Mellor (Pickerings Lifts)
Safety implications of traction when refurbishing lifts

Stuart Charles (E-Mead Consulting Ltd)
An introduction to EMC practise and the EMC standards

Registration Form : NLT Workshop - Thursday 14th April 2011
